---

Microfiber steam mops for steam cleaner heads, these mops can make the floor steam cleaning smoother with quicker and better finishing results. Most of the steam cleaners available in the market are provided with rectangular and triangular steam head brushes.

These mops can fit with most of the steam head brush models in the market. They are open in the middle to avoid any barrier and let the hot-dry steam impact on the surface and melt all the dirt and sanitize. The microfiber thick pad allow smooth the steam passage on the surface with gentle pressure and collect all the dirt leaving the surface perfectly clean and sanitize.

### **Main Specs;**
