**Steamvacuumcleaner.it** is proud to introduce the new generation of cleaning appliances; steam cleaners and steam vacuum cleaners.

This new line of cleaning equipment will continue to increase its presence in the domestic and professional cleaning industry as it happened long time ago with vacuum cleaners.

Steam vacuum cleaners will penetrate the market for its innovation that combines multi-functions in compact machines under a new ecological cleaning concept.

Steamvacuumcleaner.it would like to introduce the suitable steam vacuum cleaning range of machines for the right market providing the necessary technical support and sales know-how to whom would like to joint this business opportunity.

Steam and vacuum cleaners surprisingly appeal the market for their multi-functions ability.

With a steam and vacuum cleaner it is possible to:

- **Steam clean:** clean and sanitize any surfaces with hot dry steam, killing germs and bacterias.
- **Wet and Dry Vacuum clean,:** Any steam vacuum cleaner can be used as a vacuum cleaner to vacuum solids or liquids.
- **Steam and vacuum clean simultaneously:** with this function it is possible to wash (sanitize) and dry the surface simultaneously.
- **Air Clean:** thanks to high-efficient water based filtration system and the extra HEPA filter the outlet air is purified
- **Blower:** with the blowers it is possible to clean, remove the dirt by blowing the air in the hard to reach areas (i.e.: behind corners, heaters, etc.).
- **Sprayer:** using the blower function and with an appropriate attachment, the sprayer, it is possible to water flower and plants, to spray disinfectants, to spray water based paints, and use the sprayer for several other applications
- **Ironing:** the domestic steam and vacuum cleaners can be used also as professional steam ironing station
